

AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraph on page 42, lines 3-10 as follows:

Alternatively, the program steps can be received into the operating memory 1708 over the network 1713. In the network method, the computer receives data including program steps into the memory 1708 through the network interface 1714 after network communication has been established over the network connection 1716 by well-known methods that will be understood by those skilled in the art without further explanation. The program steps are then executed by the CPU 1702 to implement the processing of the ~~Garment Database~~ database system.
